

G1 - Le Laboratoire Curie pendant la Première Guerre mondiale (1914 - 1918)

Maria Curie continued to develop their own laboratory in France at the Curie house in Paris and elsewhere. At the end of the First World War, she gave up her research, the laboratory was destroyed and she moved to the Curie house in Paris. She then in 1918 began to work on the radioactivity of the elements. She then in 1918 began to work on the radioactivity of the elements. She then in 1918 began to work on the radioactivity of the elements.

G2 - L'organisation, les méthodes et les équipements du Laboratoire Curie

The Curie laboratory during the First World War (1914 - 1918). Marie Curie had begun working on the radioactivity of the elements. She then in 1918 began to work on the radioactivity of the elements. She then in 1918 began to work on the radioactivity of the elements.

G3 - Les Joliot-Curie au Laboratoire Curie

The Joliot-Curies at the Curie Laboratory. Marie Curie worked at the Curie Laboratory in Paris. She then in 1918 began to work on the radioactivity of the elements. She then in 1918 began to work on the radioactivity of the elements.

G4 - Les Joliot-Curie au Laboratoire Curie

The Joliot-Curies at the Curie Laboratory. Marie Curie worked at the Curie Laboratory in Paris. She then in 1918 began to work on the radioactivity of the elements. She then in 1918 began to work on the radioactivity of the elements.

G5 - Les Joliot-Curie au Laboratoire Curie

The Joliot-Curies at the Curie Laboratory. Marie Curie worked at the Curie Laboratory in Paris. She then in 1918 began to work on the radioactivity of the elements. She then in 1918 began to work on the radioactivity of the elements.

G6 - Les Joliot-Curie au Laboratoire Curie

The Joliot-Curies at the Curie Laboratory. Marie Curie worked at the Curie Laboratory in Paris. She then in 1918 began to work on the radioactivity of the elements. She then in 1918 began to work on the radioactivity of the elements.

G7 - Les Joliot-Curie au Laboratoire Curie

The Joliot-Curies at the Curie Laboratory. Marie Curie worked at the Curie Laboratory in Paris. She then in 1918 began to work on the radioactivity of the elements. She then in 1918 began to work on the radioactivity of the elements.

G8 - Les Joliot-Curie au Laboratoire Curie

The Joliot-Curies at the Curie Laboratory. Marie Curie worked at the Curie Laboratory in Paris. She then in 1918 began to work on the radioactivity of the elements. She then in 1918 began to work on the radioactivity of the elements.

G9 - Les Joliot-Curie au Laboratoire Curie

The Joliot-Curies at the Curie Laboratory. Marie Curie worked at the Curie Laboratory in Paris. She then in 1918 began to work on the radioactivity of the elements. She then in 1918 began to work on the radioactivity of the elements.

G10 - Les Joliot-Curie au Laboratoire Curie

The Joliot-Curies at the Curie Laboratory. Marie Curie worked at the Curie Laboratory in Paris. She then in 1918 began to work on the radioactivity of the elements. She then in 1918 began to work on the radioactivity of the elements.

G11 - Les Joliot-Curie au Laboratoire Curie

The Joliot-Curies at the Curie Laboratory. Marie Curie worked at the Curie Laboratory in Paris. She then in 1918 began to work on the radioactivity of the elements. She then in 1918 began to work on the radioactivity of the elements.

G12 - Les Joliot-Curie au Laboratoire Curie

The Joliot-Curies at the Curie Laboratory. Marie Curie worked at the Curie Laboratory in Paris. She then in 1918 began to work on the radioactivity of the elements. She then in 1918 began to work on the radioactivity of the elements.

muséeCURIE

ENTRÉE LIBRE
HORAIRES D'OUVERTURE
Du mercredi au samedi
De 13h à 17h
Jeux, jours fériés, Noël, Noël et vacances de Noël
GROUPES SUR RÉSERVATION

FREE ENTRANCE
OPENING HOURS
From Wednesday to Saturday
From 1 p.m. to 5 p.m.
except public holidays, August and Christmas holidays
GROUPS BY APPOINTMENT
